97. No petition for any Private Bill shall be received by the House after the first 10 days of each Session, nor may any Private Bill be presented to the House after the first three weeks of each Session, nor may any report of any Standing or Select Committee upon a Private Bill be received after the first four weeks of each Session, and no motion for the suspension or modification of this Standing Order shall be entertained by the House until the same has been reported on by the Committee on Standing Orders, or after reference made thereof at a previous sitting of the House to the Standing Committees charged with the consideration of Private Bills, who shall report thereon to the House. And if this rule shall be suspended

or modified as aforesaid, the promoters of any Private Bill which is presented after the time hereinbefore limited, or for which the petition has been received after the time hereinbefore limited, shall in either case pay double the fees required in respect of such Bill by this rule, unless the House shall order to the contrary.

98. (1) Any person seeking to obtain any Private Bill shall deposit with the Clerk of the House, eight clear days before the opening of the Session.

- (a) a printed copy of such Bill;
- (b) a copy of the petition to be presented to the House;
- (c) copies of the notices published, with publication proved by a statutory declaration of affidavit to the satisfaction of the Clerk of the House.

(2) At the time of depositing the Bill and petition the applicant shall also pay to the Clerk of the House the sum of \$300.

(3) If a copy of the Bill, petition, and notices proved as aforesaid shall not have been so deposited in the hands of the Clerk of the House at least eight clear days before the opening of the Session or if the petition has not been presented to the House within the first 10 days of the Session, the amount to be paid to the Clerk shall be \$600. If the Bill shall not pass second reading, one-half of the fees shall be returned.

100. (1) All applications to the Legislative Assembly for Private Bills of any nature whatsoever shall require the publication of a notice clearly and distinctly specifying the nature and object of the application, and when the application refers to any proposed work, indicating sufficiently the location of the work, to be signed by or on behalf of the applicant.

(2) Such notice shall be published in *The British Columbia Gazette* and once a week in one leading daily newspaper freely circulating in all parts of the Province. The notice in such newspaper to appear on Wednesday of each week.

(3) When the proposed Bill is of such a nature that it may particularly affect one or more electoral districts, the notice shall furthermore be published once a week if possible in some newspaper in every electoral district affected, or if there be no newspaper published therein, then in a newspaper published in the electoral district nearest thereto.

(4) The publication of such notice shall in all cases be continued for a period of four weeks during the interval of time between the close of the next preceding Session and the consideration of the petition.

101. Every petition signed by an agent or attorney in fact shall be accompanied by the authority of such agent or attorney in fact, and the petition shall not be deemed to be filed with the Clerk until this is done.

102. Before any petition praying for leave to bring in a Private Bill for the erection of a toll bridge is received by the House, the person or persons intending to petition for such Bill shall, upon giving the notice prescribed by Standing Order 100, also at

the same time and in the same manner give notice of the rates which they intend to ask, the extent of the privilege, the height of the arches, the interval between the abutments or piers for the passage of rafts or vessels, and mentioning also whether they intend to erect a drawbridge or not, and the dimensions of the same.

103. (1) All Private Bills for Acts of incorporation shall be so framed as to incorporate by reference to the causes of the general Acts relating to the details to be provided for by such Bills: Special grounds shall be established for any proposed departure from this principle, or for the introduction of other provisions as to such details, and a note shall be appended to the Bill indicating the provisions thereof in which the general Act is proposed to be departed from. Bills which are not framed in accordance with this Standing Order shall be recast by the promoters and reprinted at their expense before any Committee passes upon the clauses.

(2) Every Bill for an Act of incorporation, where a form of model Bill has been adopted, shall be drawn in accordance with the model Bill (copies of model Bills may be obtained from the Clerk of the House). Any provisions contained in any such Bill which are not in accord with the model Bill shall be inserted between brackets or underlined, and shall be so printed.

(3) Any exceptional provisions that it may be proposed to insert in any Bill shall be clearly specified in the notice of application for same.

107. I HEREBY CERTIFY that Rolla Village Chapel has this day changed its name to the name Rolla Bible Baptist Church and has, pursuant to the *Society Act*, altered its purposes and that its purposes now are:

Section II—Purposes of the Society:

1. This organization shall be a Baptist Church; that is, a voluntary fellowship of immersed, born-again believers, assembled for mutual growth and the promotion of the Christian Gospel in all the world, practising as ordinances, believer's baptism by immersion and the memorial of the Lord's Supper. This church shall:

(a) Provide a fellowship upon a thoroughly biblical basis, unmixed with liberals and liberalism and with those who are content to walk in fellowship with unbelief and inclusivism such as is involved in neo-evangelicalism, neo-orthodoxy and any other relationship by which the scriptural principles of separation are compromised or set aside.

(b) Encourage the interest of this local church in sound biblical missions, both at home and abroad, and the creation of additional like minded churches and institutions wherever necessary and advisable to fulfill the commission of our Lord in the face of rising apostasy.

(c) Present before the world, religious and otherwise, a positive testimony to the New Testament faith and to oppose departure from the great foundational truths of the Word of God.

(d) Maintain a firm stand against the atheistic communistic conspiracy and against every system subversive of a free church and a free state. We stand entirely outside the ecumenical movement repudiating its ideological position and its organizational structure in the National Canadian and World Council of Churches.

APPLICATION FOR AMENDMENT OF WASTE MANAGEMENT PERMIT PE-1199

THIS APPLICATION is to be filed with the Waste Management Branch, 1259 Dalhousie Drive, Kamloops, B.C. V2C 5Z5.

Any person who may be affected by the amendment to Permit PE-1199 described below may, within 30 days from the date of posting, publication, service or display, state in writing to the Manager how he is affected.

Preamble—The purpose of this application is as follows:

Weyerhaeuser has a program to reduce the effluent flow rate. The water and some of the pollutants will be reduced but others may remain unchanged. As the flow decreases, the concentration of these unchanged pollutants will increase. To compensate for the reduced flow rate, the permit must be modified so performance is evaluated on the basis of the actual quantities of pollutants discharged. The actual discharge mass does not increase. The level of pollutants remains the same.

The B.C. Pollution Control Objectives recommend an allowable discharge of some pollutants based on the production capacity of a pulp-mill. If the productivity of a mill is increased, a corresponding increase in pollutant loading may be allowed. The productivity of the Kamloops mill has increased from 1 135 air-dried tonnes per day in 1977 to 1 340 air-dried tonnes per day in 1982/83. Corresponding adjustments to the permit allowances are requested.

The permit allowance for total suspended solids was based on a specific measurement method. The measurement method was changed and the B.C. Pollution Control Ob-

jective was modified accordingly by increasing the allowable amount from 7.5 to 10 kilograms of total suspended solids per air-dried tonne of pulp. It is requested that this modified Level A objective of 10 kilograms per air-dried tonne of pulp be incorporated into the permit.

A temporary bioassay laboratory has been sited near the mill to determine the effects of effluent on fish. It is requested the permit authorize the operations of the facility.

The previous permit contains very specific programs to monitor the effects of the pulp-mill on the Thompson River and Kamloops Lake. New scientific knowledge has made much of this program obsolete. It is requested that this program be removed from the permit to allow the Waste Management Branch to design and update monitoring requirements based on the current scientific understanding of the environment.

The existing permit does not state a statistical basis for determining compliance with permit conditions. It is requested that permit conditions be based on a monthly average of the data collected with individual daily values not to exceed 2 times the monthly average.

Weyerhaeuser Canada Ltd., 300, 153 Seymour Street, Kamloops, B.C., hereby applies for amendments, as described below, to Waste Management Permit PE-1199, granted on February 4, 1972, last amended November 3, 1982, which authorized the discharge of effluent from a pulp-mill located at Kamloops, B.C., to the Thompson River.

Proposed Amendment to Appendix B-1

Before: B. *Total Load Concept*—For the purpose of calculating the allowable daily discharge of total suspended solids and BOD₅, the mill's normal production rating has been assessed at 1 135 air-dry tonnes of bleach pulp per day. The allowable daily discharge of total suspended solids and BOD₅ has been calculated based on this mill's production rating and the Level A objective of 7.5 kg/ADT as follows: $1\ 135 \times 7.5 = 8\ 510$ kg/day, each for BOD₅ and suspended solids. The assessed mill output of 1 135 ADT is subject to revision at any time, should evidence be available that mill's performance differs significantly from the past pattern and the assessed optimum production capacity does not apply. This should not imply that an increase in the mill output will warrant the increment of the total allowable load of discharge of any one parameter.

After: B. *Total Load Concept*—For the purpose of calculating the allowable discharge of total suspended solids and BOD₅, the mill's normal production rating has been assessed at 1 340 air-dried tonnes of bleached pulp per day. The allowable monthly average discharge of total suspended solids has been calculated based on the above mill production rating at 10 kg/ADT as follows: $1\ 340 \times 10 = 13\ 400$ kg/day. The allowable monthly average discharge of BOD₅ has been calculated based on the above mill production rating and 7.5 kg/ADT as follows: $1\ 340 \times 7.5 = 10\ 050$ kg/day. The maximum daily allowable
